

# **Certificate of Qualification**

**APRIL 2013**

Gala Systems Inc., hereby declares that the following Theatre Contractor is qualified to purchase Spiralift units individually.

## **BALTIC SERVICE SP. Z O.O.**

This Theatre Contractor has proven that it has the knowledge and experience to safely integrate the Spiralift into their projects' design and that it has both strong capacity for under-stage engineering and installation.

This Theatre Contractor has also sent at least one design engineer, or someone with equivalent qualifications, to attend **Gala Spiralift Integration Training**, and who has successfully completed it. This (these) design engineer(s) is (are):

## **BOGUSLAW PANAS GRZEGORZ KRAJEWSKI**

According to paragraph 1.3 of Gala's **Spiralift Conditions of Sale for Theatre Contractors**, latest edition, it is understood that this qualification is valid as long as at least one of the above mentioned design engineers remain at the employment of the Theatre Contractor; or if Gala has sufficient proofs that this Theatre Contractor no longer has the ability to integrate the Spiralift safely. Furthermore, all Spiralift integration work done within the Theatre Contractor Company must be done by or under the supervision of one of the above-mentioned design engineers.
